# ABOUT US

Work Safety Products is a Kolkata based Indian company and one of the leading manufacturer & exporter of industrial leather gloves and industrial leather work-wear with an industry experience of more than a decade.

As a manufacturer of industrial leather goods, we source our raw materials from reputed local suppliers, manufacture the item with great state of the art infrastructure under strict professional supervision and export them world-wide. Currently we are exporting our products to varied geographies across the globe.

One of our unique benefits lies in our ability to design and innovate industrial standard safety work-wear meeting customer-specific requirements. We focus particularly on offering quality

products with exceptional value. We ensure timely deliveries and remain accurate on the information we offer.

Our vision lies in the fact that we are a customer-focused company. We take pride in our products and services. In case you have any issues, we will do everything we can to fix the problem because we care for our customers and committed to doing our best.
